

Fashion applications have seen tremendous growth and are now one of the most used programs in the e-commerce field. The needs of people are continuously evolving, creating room for innovation among the applications. Having an AI program that understands the algorithm of a specific application can be of great aid. We are implementing such a chat bot, which is fed with the knowledge of the application's algorithm and helps the user completely from finding their needs to processing the payment and initiating delivery.

A little bit of preparation goes a long way with this session. Here's what you need to do to get going

- [Open article](#)
-

1

Unavailability of chatbots that are interactive enough to navigate the user to do whatever they want. The amount of toil a user has to go through to look for a product they desire for. Need for a more User-friendly Interface. The main aim of the project is to develop a smart chat-bot that is able to understand the needs of the user and recommend products of desire

PROBLEM

How might we [your problem statement]?

Key rules of brainstorming

To run an smooth and productive session

- | | | | |
|-----------------------------------------------------------------------------------|-----------------|-------------------------------------------------------------------------------------|-------------------------|
|  | Stay in topic. |  | Encourage wild ideas. |
|  | Defer judgment. |  | Listen to others. |
|  | Go for volume. |  | If possible, be visual. |

2

Write down any ideas that come to mind that address your problem statement.

10 minutes

3

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

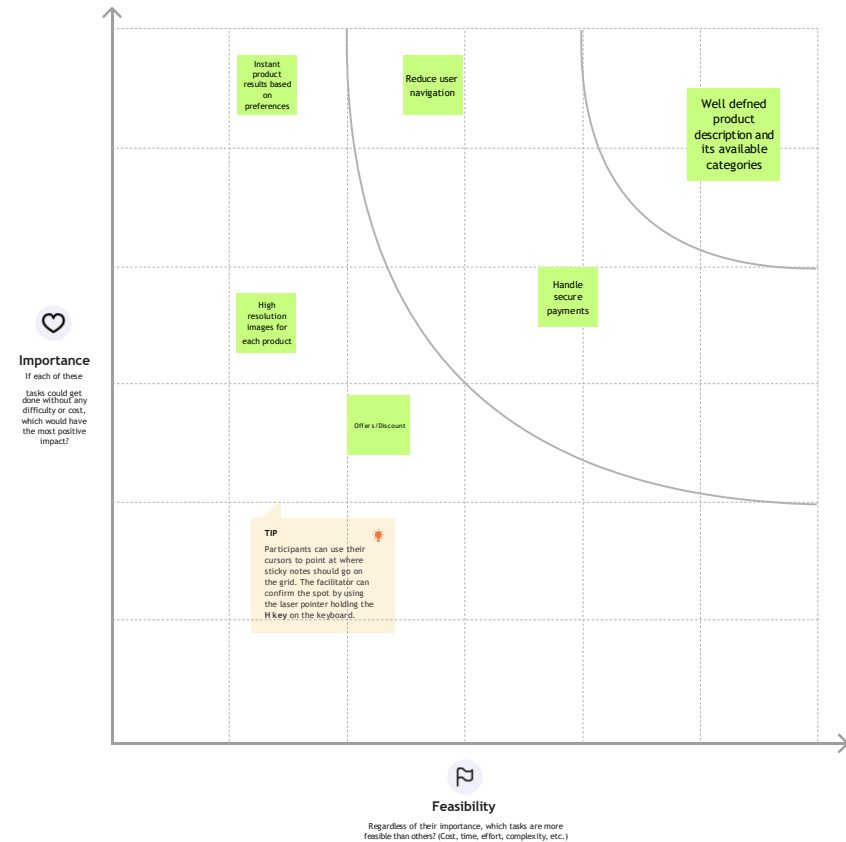

20 minutes

TIP
Add customizable notes to make it easier to browse, organize, and manage your data.

4

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

 20 minutes

You can export the mural as an image or pdf to share with members of your company who might find it helpful.
